PANTHER CHASSIS

Extraordinary Value, Superior Safety.

The KME Panther features a 94" wide cab that is configured with an extensive range of premium systems and components. Easily accommodate your crew, equipment and storage needs with numerous cab style and roof-line options.

BEST-IN-CLASS SAFETY

Designed and purpose built for the firefighters, the KME Panther offers best-in-class apparatus safety with eight airbag positions that gives your apparatus the highest available impact and anti-ejection protection available. Innovative seat belt systems and outboard sensors dramatically reduce restraint.

ENGINEERED FOR CUSTOM

The KME Panther is available in a variety of configurations that offer plenty of space with seating for up to ten firefighters. The raised roof extends over the driver and officer, making it easier to maneuver within the cab and ergonomic controls help ensure safe and easy operation of the vehicle.

SAFE AND SPACIOUS CAB

KME provides the most spacious and ergonomic cabs in the industry with flat floors, low step heights, and taller, wider cab doors. An optimized engine tunnel offers increased leg and hip room for the front seats, while giving more floor space to the rear crew.
