

K-180 PUMPERS

ROAD READY IN 12 MONTHS OR LESS*

ENGINEERED TO SERVE.

K-180 pumpers are modular-designed trucks that start with the most commonly selected features to streamline the process while still allowing customization to meet your department's needs. These custom trucks deliver the strength, safety and performance that departments of all sizes demand.

K-180 pumpers are built on KME's trusted Panther chassis platform, or FC-94 chassis on select models, paired with a durable, high-performance body. With faster order-to-delivery timelines and long-term durability, K-180 pumpers can be ready in 12 months or less*—without compromising KME quality and reliability.

PUMPER KEY FEATURES

More Maneuverable

- Cramp angles of up to 53° make it easy to navigate tight or winding streets
- Designed for urban, suburban and combination department environments

Maximized Space Usage

- Full-depth and split-depth compartments with multipurpose slide-out trays offer increased storage and easier access to tools

Industry-Best Safety

- Features KME's TOP (Total Occupant Protection System) plus ergonomic controls and easy access to hoses and equipment

Low Cost of Ownership

- Features nonproprietary pump components and standard parts, making reordering easy and efficient

Best-in-Class Warranty

- 2-year bumper-to-bumper warranty, backed by KME's nationwide service and support network

At a Glance

- Built on the KME Panther chassis or FC-94 chassis on select models
- Side-mount configurations
- 500, 750 and 1,000 U.S. gallon tank capacity
- Available in multiple custom configurations
- Maximized compartment space
- Waterous pumps
- Low hose bed models available

*Subject to availability and order intake.
